

In-Bed Positioning

LTC Body Positioning Wedges

Provides secure positioning for the side-lying client, eliminates pillow propping, and prevents arms and legs from being caught between mattress and side rails.

Two sizes: 8" x 10" x 28" and 8" x 10" x 36".

Vinyl cover.

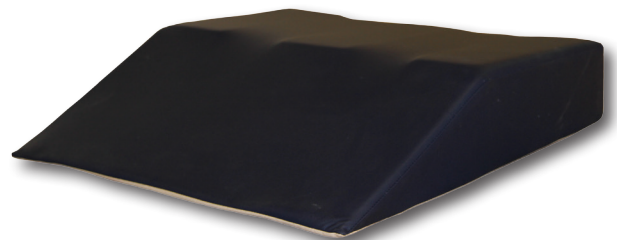

LTC Heel Lift Wedge

Ideal for individuals who spend prolonged periods in bed. Helps with recovery and prevention of heel skin tissue break down. Helps minimize leg turn out with comfortable leg troughs.

Two versions - with or without leg channels.

Vinyl cover.

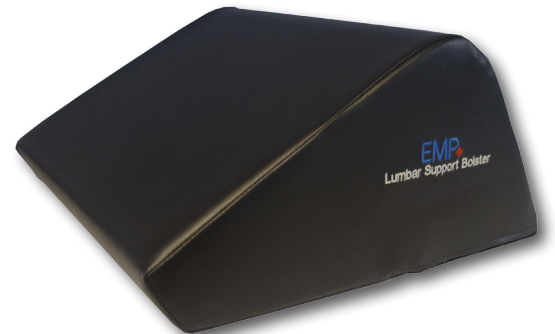

Lumbar Support Bolster

Reduce pressure and muscle tension on the lower back. Promotes proper posture, relieves pain caused by tight hamstrings, and tilts the pelvis into position to relieve tension in the lower back.

Available in 8", 9", 10", 11", 12" and 13" heights.

Choose poly-cotton or vinyl cover.

Elevation Bed Wedge

For individuals with pulmonary infections such as pneumonia, bronchitis and asthma as well as hiatus hernia, where elevating the upper body while resting provides relief.

Available in 4", 7", 10", 12" and 14" heights.

Choose poly-cotton or vinyl cover.

EMP vinyl cover materials are fluid-proof, stain-resistant, anti-microbial, and anti-bacterial. Custom sizes are available.
